OBJECTIVE:

Java Developer with knowledge of Java, Spring Boot, Hibernate, and MySQL. Able to build basic applications using HTML, CSS, and Bootstrap. Eager to learn and contribute to projects.

TECHNICAL SKILLS:

- **Programming:** Java, SQL
- **Backend:** Spring Boot, Hibernate, REST APIs
- **Frontend:** HTML, CSS, Bootstrap.
- **Databases:** MySQL
- **Tools & IDEs:** Eclipse, IntelliJ IDEA, VS Code, Spring Tool Suite, MySQL Workbench, Android Studio
- **Version Control:** Git, GitHub
- **Deployment Platforms:** Vercel, Github Pages.

PROJECTS:

Note Taker Web App

Developed a secure CRUD note-taking application with user authentication REST APIs using Java, Hibernate, and MySQL.

Technologies: Java, Hibernate, MySQL, HTML, CSS.

- Built Restful API for user authentication and note management.
- Used Hibernate ORM for mapping entities and database communication.
- Designed responsive UI using Bootstrap and validated input forms.

Portfolio Website with Spring Boot

Built a personal portfolio website using Spring Boot with MVC architecture and controller-based routing.

Technologies: Spring Boot, HTML, CSS

Implemented Spring MVC with controller-based routing and templates.
